Absolute 48 Coupé - the Absolute Horizon: a new horizon of possibilities.
Absolute Yachts launches the first model in the new Coupé range.

Once again, Absolute Yachts throws down the gauntlet to the luxury yacht industry with the new Coupé range: sporty, devoted to comfort, and highly versatile. The series, which is a new chapter for our Italian shipyard, has been completely re-invented. The revolutionary ideas that have made Absolute's models famous are back on board; this time, they have been enhanced by intriguing new features. For instance, they have been equipped with solar panels, large windows with panoramic openings, and a large "*terraced*" cockpit, in which new configurable décor allow for maximum versatility of use.

The sporty lines preserve Absolute's spirit and attention to the environment. Absolute 48 Coupé stands out for her bold style, high level of usability, and a strong commitment to sustainability. For example, her roof is equipped with a set of solar panels, one of which is transparent to let in natural light without overheating the room. This offers a convenient and clean source of energy, which is particularly important while you are enjoying your surroundings at anchor. The choice reflects Absolute Yachts' principles: pursuing the least possible environmental impact while on board and during construction.

In the salon, the large side windows envelop the entire deck and, together with the panoramic windshield, offer uninterrupted visibility. From the inside, this breathtaking view turns into an actual 360-degree panorama. Moreover, the windows can be electrically opened, letting in the sea breeze and creating a pleasant, natural air recirculation.

The cockpit is wide and extremely cozy, with no visual barriers or fixed obstacles. For this reason, its space can be adapted to multiple configurations, transforming itself to the desired way of life on board. The opening of the side gunwales offers a direct view of the sea and the new glazed balustrades towards the stern give an unparalleled scenery, even from the salon and the helm station. The outdoor furniture can be easily arranged in different configurations, adapting to the different needs onboard: perfect for either maximum relaxation or intriguing conversations.

48 Coupé - the Absolute Horizon - redefines the concept of the horizon as a new boundless dimension where it is possible to experience something unique and unprecedented. Tracing, in a way, their own horizon. Thanks to innovative and forward-looking engineering, owners and their guests can enjoy the cozy galley, perfect for lunch, as well as for an afternoon in good company. Escape from the hustle and stress of everyday life in total autonomy and safety. A unique journey also awaits below deck, where three comfortable cabins with high ceilings offer unparalleled livability for yachts of this size.

Absolute 48 Coupé will premiere at the Cannes Yachting Festival, from September 7th to the 12th, 2021. The event will be preceded by a few special days for the press in August 2021.

Absolute Spa designs and builds luxury yachts from 47 up to 73 feet in the Navetta, Flybridge and Coupé model ranges. The company has been founded in 2002 and it is based in Podenzano, Piacenza (Italy). Absolute is independent both financially and in management. The different phases of studying, planning, and production are developed internally thanks to the merge of high-level professional competencies in the yachting industry. Absolute is renowned internationally thanks to our network of dealers working hand in hand with the company and are committed to its principles. The shipyard is extended on a 48,000 Sqm surface, using geothermic and solar solutions that can control the environmental impact. In addition, a filtered system purifies the air inside the production site while disposable materials are managed sustainably and properly for the environment. Absolute is the symbol for experience, innovation, and practicality with yachts appreciated all around the world. Today, the company has solidified its place inside the yachting industry worldwide by winning several international awards for the design and architectural characteristics of the boats.
