#### SEAWORTHINESS QUALITIES:

- soft passage on the wave and dry deck even in rough seas
- excellent stability at sea and anchor
- low consumption with resultant great endurance and reduced CO<sub>2</sub> emissions
- perfectly navigating both in displacement and planing mode
- easy maneuvering in port thanks to the versatile joystick
- record-breaking performance with a nearly 42-knot top speed

Seaworthiness has always been Solaris Power's design priority since 1974, and the hull's shape is the first and most crucial element of this significant feature. The boatyard has always invested heavily in the study of hull shapes entrusted to Brunello Acampora, who boasts over thirty years of experience in this field also gained in the field of racing F1 offshore, and in recent years the navigational skills of the Solaris Power boats have received a consensus unanimous on the part of journalists, customers and professionals. The Solaris Power 40 Open hull 40 represents a further evolutionary step of the proven and well esteemed hulls of Solaris Power.

#### THE NEW 40 OPEN IS A NEW GENERATION MOTORYACHT

IT REPRESENTS A BOLD STEP FORWARD COMPARED TO ALL THE BOATS OF THIS SIZE  
ON THE MARKET
